

Ian Norris

Full-Stack Engineer

📍 Flagstaff, AZ | ✉ ian52n@gmail.com | [in ian-norris1](https://www.linkedin.com/in/ian-norris1) | [G ian52n](https://github.com/ian52n) | ian.ai-editor.app

Summary

Full-stack engineer with production experience across React/TypeScript, .NET, Python, and PostgreSQL on platform serving 10,000+ users. Deployed iframe + postMessage SPA bridge between legacy ASP.NET and modern .NET Core/React apps. Founded LLC and built AI-powered product as sole engineer.

Technical Skills

Frontend: React, Next.js, SwiftUI, TypeScript, JavaScript

Backend: .NET Core (C#), ASP.NET MVC, Entity Framework, Dapper, Python, Go, REST APIs

Data & Cloud: PostgreSQL, T-SQL, AWS, Cloudflare Workers, Linux, Docker, CI/CD

DevOps: Git, Agile, Jira, Confluence, Code Reviews

Experience

Full-Stack Engineer

2025

AssetMark (Financial Services)

Concord, CA

- Built end-to-end features across React/TypeScript, .NET Core (C#), and PostgreSQL for eWealthManager platform serving 10,000+ users, at 85% unit-test coverage.
- Architected and deployed legacy-integration layer (iframe + postMessage) bridging server-side ASP.NET with client-side .NET Core/React apps in SPA with persistent navbar.
- Designed scalable RBAC permission schema; built REST APIs; deployed backends to Linux in production.

Lead Engineer & Founder

2025 – Present

AI Editor LLC

Remote

- Founded LLC and shipped **AI Photo Editing** to App Store as sole engineer: integrated generative image-AI into product UI (800+ users, zero crash rate).
- Building peer-to-peer VPN with native Kotlin client and Go backend.

Software Engineer

2023 – 2025

Practice Defenders (EHR) & *AESOP Afghanistan*

Remote

- Practice Defenders:** Built Python API integration and automation pipelines across external EHR systems with focus on reliability and consistent data handling in distributed services.
- AESOP Afghanistan:** Built Python backend services and API-driven workflows (Google APIs); refactored legacy systems and added automated testing.

Mathematics Educator (Founder & Teacher)

2012 – 2024

Prime Factor Tutoring Services; Palm Harbor University HS

Palm Harbor, FL

Ran independent tutoring business; taught math and special education.

Projects

User Group Management System

2025

C#/.NET 8, React, PostgreSQL

ian.ai-editor.app

- Full-stack RBAC admin tool: RESTful .NET 8 backend, React/TypeScript frontend, PostgreSQL, clean architecture; end-to-end CRUD over groups, permissions, and attributes.

Education

M.S. Mathematics, With Distinction — GPA 4.0

2026

Northern Arizona University

Flagstaff, AZ

Researched ML-based influenza forecasting. Led 5-person team to design LLM evaluation system and improved model accuracy from 50% to 96%. Graduate Teaching Assistant; Data Science Club Vice President, SAIR Team Leader, DataFest Mentor.

B.S. Mathematics — GPA 3.8

2011

Northern Arizona University

Flagstaff, AZ

Peer-reviewed publication in *DMTCS* (combinatorial game theory), 2014.
